Dear Sir or Madam

CONSIDERATION OF PETITION PE1524

Wi-Fi Connectivity as a support for Visitors and those doing business (as well as those who live) in the City is Crucial. An effective free Wi-Fi facility across the City centre is the main priority, with free Wi-Fi in municipal buildings being desirable.

They should be as easy to connect to and with as little commercial interruption as possible but in exchange for a free service some commercial involvement is acceptable.

Yours faithfully

Andy Neal
Chief Executive
