

**CITY OF EDINBURGH COUNCIL (PORTOBELLO PARK) BILL  
COMMITTEE  
CONSIDERATION STAGE - ADDITIONAL EVIDENCE**

**Group 2 brief given to independent assessor on road safety and traffic concerns**

**Scope of Service**

The scope of service will be to provide a list of problems that would likely be identified during a Stage 1 Road Safety Audit on the preliminary scheme proposals for the new Portobello High School at Portobello Park.

This service will cover:

Consideration of traffic flow and accident data provided.  
Obtaining details on the planning consent issued by City of Edinburgh Council to the Scheme developer  
Obtaining the TIA and considering the information within  
Using google street view to assess the road safety impact of the preliminary proposals.  
Providing a list of Road Safety problems which would be likely identified during a Stage 1 Audit (Preliminary design). This would supplement/ compliment the data you have already prepared.

For clarity and to avoid ambiguity:

The service, whilst aiming to provide a list of potential road safety problems, is not an Audit and will not be undertaken to the same standards contained in HD19/03.  
There will be no mitigation measures recommended for each problem.  
The list of problems will be used to present a case, but will not make any recommendation/ opinion on whether or not a Road Safety Audit should be undertaken for this scheme, this is for others to decide upon based on current Council policy.  
There will be no comparison with other options for the location of the proposed high school.  
The report will only list potential road safety problems for consideration with the preliminary scheme proposals. It will not be a design check or traffic assessment nor will it comment on the procedures followed by the scheme promoter or any other aspect of the Project.
