Health and Care (Staffing) (Scotland) Bill

Dear Jane,

The Committee commenced formal consideration of the Health and Care (Staffing) (Scotland) Bill on 11 September.

Prior to the formal evidence the Chief Nursing Officer (CNO) provided us with data identifying the number of wards/teams/departments who have applied each of the workload tools during the financial years 2016/17 and 2017/18 by NHS board. You can view the data tables in the CNO’s letter.

We note from the data NHS Greater Glasgow and Clyde did not run the tools in the following areas between 2016-2018:

- Emergency department/Emergency medicine
- Clinical nurse specialist

We also note that in the following areas the tools were run but at a reducing frequency:

- Community nursing.

To help our scrutiny of the Bill we would welcome details of why workload tools were not run in certain departments and why others were run at a reducing frequency.

The Committee would welcome your response to this letter by 24 September.

Yours sincerely
Lewis Macdonald
Convener
Health and Sport Committee
