

Impact of Bank Closures

TSB Bank

Since TSB launched in September 2013 we have closed 35 branches in Scotland. Of these:

Nine buildings are empty following closure. This consists of:

- Two buildings which are owned by TSB and are in the process of being sold.
- Seven building on lease to TSB, pending a return to the building owner.

Sixteen branch buildings have been sold by TSB. While TSB does not collect information on future uses of properties sold by the bank we try, where possible, to sell to local developers or investors.

Ten branch buildings have been returned to their freeholder.
