**QUEEN ELIZABETH UNIVERSITY HOSPITAL: LEGAL ACTION INITIATED BY
GREATER GLASGOW AND CLYDE NHS BOARD**

I wished to draw the attention of the Committee to the publication by Greater Glasgow and Clyde (GGC) NHS Board of a summons that they have issued in pursuit of legal action associated with the construction of the Queen Elizabeth University Hospital. GGC has initiated action against a number of companies involved in the construction of the hospital. The basis of the action is described in the summons and also in a statement that the Board has issued, which I enclose for your information.

Alongside publication of the summons, GGC has taken steps to inform interested persons, including patients and their families, about the initiation of legal action and the reasons why GGC considers taking such action appropriate. Steps have also been taken to inform staff working in the hospital.

I hope that the Committee finds this information useful.

JEANE FREEMAN
