

JUSTICE COMMITTEE

HATE CRIME AND PUBLIC ORDER (SCOTLAND) BILL

SUBMISSION FROM PETER FRASER

Dear Justice Committee,

Hate Crime Bill – a Call for Views

Your Hate Crime Bill would hand you unprecedented powers to serve the agendas of certain parts of Scottish society which are identified as most deserving by the Scottish Government.

Serious hate incidences and physical intimidation are already covered by full legislation, so why is more legislation needed?

The purpose of this new legislative proposal is to control the mindset of the People. To brainwash also the young and prepare the way for your new Social Programme for the first few years of the new Scotland project.

Once again, we all have to take time out to fight for Freedom and Common Sense in a world where the ruling minority Woke class simply insist that its views and visions are exclusively thrust on every corner of society, whether it likes them or not.

The vast majority of people are prepared to offer tolerance, love and respect and will be kind towards everybody, even when they are not specifically a member of any particular (minority) grouping. There are of course a few rabble rousers that need to be dealt with, but your legislative **aim is to suppress everyone** outside the core groups who are **“The Offended”**.

A great many of those involved in promoting identity politics are also belligerent and angry people who do not shun confrontation. They often oppose alleged intolerance with intolerance and are pretty adept at hatred themselves. News bulletins recently have witnessed some of those in action.

Through a succession of empires from the Romans to the later European colonial oppressors, the French and Russian revolutions and on to the Reich and Mao, to name but a few, political strategists have sought to impose their views and stamp out opposition by full on control measures. So, nothing new here?

The new Woke Fundamentalists cannot accept **tolerant rational argument**. Society is now deliberately torn apart by worldwide totalitarian rule designed to destroy opposition to the new **virtue signalling** and **victimhood** culture. Anyone not on board must be **deleted**.

Many of the perpetrators of this line of attack are now surprisingly rich, powerful and successful people. Self opiated. Even corporations now, media, academia, celebrities and governments. Their bread is buttered by those they morally castigate.

No longer is legislation to be the preserve of the poor and down trodden but of those who step in, in order to dictate what we shall all believe. If we don't, then we are **all bigots** and must be shut down.

Can we **please return to common sense and democracy and unity** instead of **another sectarian approach**?

Lord Bracadale takes the view that any legislation of the type you seek to introduce should have a **free speech clause** whereby reasoned rational argument, which displays courtesy and tolerance, must be allowed. Rabble rousing and mob rule inflicting grief on others should not.

Are you prepared to accept free speech?

I am sorry but I am not persuaded to take the knee before this approach.

Yours faithfully,

Peter Fraser
