

JUSTICE COMMITTEE

HATE CRIME AND PUBLIC ORDER (SCOTLAND) BILL

SUBMISSION FROM JASON WILSON

Hate Crime and Public Order

There has not been a widespread public discussion on this, as all I speak to have not got a clue, what this possible new law is, and its implications will be. I only stumbled on this by chance with not government advertisement.

This is alarming on its own, but this possible new law is more so.

Being it conflicts with human rights article ten, section one. Free speech is vital to our country to challenge opinion's and the ability to stand up to speak out to those we don't agree with. This is to have open discussions to round our beliefs and to challenge them.

This possible law will change that.

The government is miss using its powers to bring this law in. very much like a fascist government casing control over the population.

The sexism in this possible law is clear when it drops Misandry from it and misogyny is left in. This is clear that men are thot to be lower. Both sexes must be treated the same, but this is not true with this possible law.

This can be used to twist people's words so that they fit a crime, rather than let true evidence be presented for prosecution. Rather than perceived meanings.

This law must be stopped to protect the people. There human right to free speech. Equality between the sexes.

Jason Wilson
