

JUSTICE COMMITTEE

HATE CRIME AND PUBLIC ORDER (SCOTLAND) BILL

SUBMISSION FROM SAMMY THOMAS

Hello, there are a few problems with this bill. And please read the whole thing, I know the first line is quite provocative. The bill was conducted in a massive echo-chamber of BLM, feminists and other radical left wing groups, there was no one to debate the other side i.e the problems this will cause. First of all the bill does not include racism towards white people and it doesn't include misandry, which does exist by the way as shown in modern politics. Second of all this in its existence is a fascist authoritarian bill. Which infringes on the human rights of everybody. Next, the context of the person that is arrested will be ignored as to why he said it, only how the victim perceives it, that is a foolish proposition to take, the person doesn't know the perpetrator more than he knows himself. And finally, this will affect everybody, including you so if you insult someone and they get especially angry. Then they could potentially call the police and have you arrested under this 'hate crime bill'. Please take this into consideration even though I know you won't.
