

PE1648/D

Shetland Islands Council submission of 6 July 2017

We do not have many private nurseries in Shetland, but those that we do have support us with provision for Entitled Twos, and in the future we hope that the provisions which are operating will form part of the available offers for 1140 hours, providing they meet the quality requirements.

Therefore any action which supports their current viability, and which might encourage other businesses to start up is welcomed.
