Dear member of parliament.

i am getting worse with short term ssri use.  
In my country i found victims like myself.

These drugs are highly addictive and extremely harmful.and ruin human central nervous system.

please ban ssri snris from ur country. Please dont let your children use adhd and antidepressant medications.

chemical imbalance theory originated in 60s with no scientific proof. these drugs actually cause chemical imbalance.

please check online 40+ groups of ssri victims please read their stories.
