Ann Kelly submission of 14 March 2021

I am writing this regarding this petition that has, in my view, not moved forward at all in any meaningful way.

The fact that you received 300 submissions from people who have suffered chemical harm should hit home very forcefully. What do people need to do? Scream outside the parliament and have themselves arrested.

What staggers me is how Power (with a capital P) can put a mechanism together where 'The People' can be heard... except, in my view, they can't and aren't!

Its Power who dictate the 'terms of engagement' and its power who shuffles around and plays at pretending something is being done! It's not good enough!!!

I do not believe that this mechanism is working. I'd like to hear how people who are suffering are moved forward? What in real terms has been done?
